

The image is a product advertisement for the JouleBox500 kit. It features a white, cylindrical device with a grey top and bottom, labeled 'JouleBox500' on its side. The device has two circular ports on top and a small white light indicator. In the background, two green and white pendant lights hang from black cords. To the right, a window with blue-tinted panes is visible. The overall aesthetic is clean and modern.
